

Zipp-Zapp

Special gripping tool to remove securing plugs from packing tubes

Simple and Fast

As the tool is squeezed closed, sharp jaws slide underneath the head of the plug.

Secure

The built-in holder holds the plug tight, thereby preventing it from falling in between components or machinery.

Robust and Conductive

Manufactured from impact-resistant material.

Surface resistance is $10^5 \Omega$.

Description	Order No.
Zipp-Zapp	8860002

Easy to Use

Position the opened Zipp-Zapp vertically onto the head of the plug and squeeze closed.

Tip the Zipp-Zapp to the side.
