

CS10-CS20 CS30-CS40

feeders for
loose axial
components

CS10 FEEDER for: TP6, TP6/PR-B, TP6/S
(Cod. 51.0100)

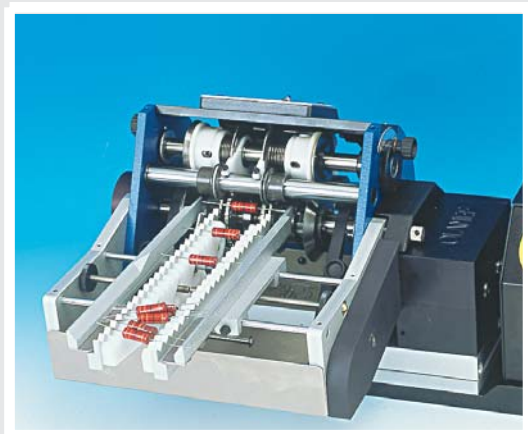

CS20 FEEDER for TP6/V-PR
(Cod.51.0200)

CS30 FEEDER for TP6/V
(Cod.51.0300)

WIDTH = 22 cm
DEPTH = 24 cm
HEIGHT = 10 cm
PACKING = 29x24x24 cm
VOLUME = 0,020 m³
FEEDER WEIGHT = 2 kg
GROSS WEIGHT = 3 kg

CS40 FEEDER for TP6/PR-F
(Cod. 51.0400)

WIDTH = 26 cm
DEPTH = 24 cm
HEIGHT = 10 cm
PACKING = 26x35x10 cm
VOLUME = 0,091 m³
FEEDER WEIGHT = 2,2 kg
GROSS WEIGHT = 3,2 kg

PRODUCTION WITH MOTORIZED MACHINES = 5000/9000 p/h

The CS10 - CS20 - CS30 and CS40 are loose component feeders. These accessories have been designed to handle loose axial components only.

All feeders operate with the same principle, but they are manufactured with minor differences according to the machine they are made for. This allows the quickest assembly and the easiest adjustments.

WARNING:The motor drive unit is always recommended when using the loose component feeders: CS10 - CS20 - CS30 or CS40.
